## Dr. Peale May OK Plans For 'Positive Living' Center in San Diego

Dr. Norman Vincent Peale, world religious leader, pastor, columnist, traveler and author, visiting San Diego last week had to pass up an opportunity to visit with a Lemon Grove minister who was a college mate with him at Ohio Wesleyan University. He was leaving town "within hours."

The local man is the Rev. Arthur T. Kent, associate pastor of the Lemon Grove Methodist church.

"Yes, I remember Arthur well," Dr. Peale told a reporter during a press conference Friday at El Cortez hotel. We attended college and theology schools together but he was a class behind me and later a class ahead of me."

**In Campus Politics**  
In Lemon Grove Rev. Kent said that Dr. Peale, a friendly person, was active in campus politics. "He was active in many councils, the Panhellenic Council in particular. It is little wonder he has achieved so much success."

Rev. Kent, who lives at 6606 Mallard st., recalls that Dr. Peale was in the class ahead of him when he entered Ohio Wesleyan. By the time Dr. Peale entered Boston University School of Theology Rev. Kent was a class ahead of him.

"It probably took him two years to decide he wanted to become a minister," Rev. Kent said.

Dr. Peale was in San Diego with his wife enroute a world

trip. He said he hoped to gain spiritual enrichment by the trip. Mrs. Peale said she hoped to do some shopping in Hong Kong.

**Strong On Social Problems**  
Dr. Peale, responding to reporters' questions at the press interview, said the church has shown strength in attacking social problems involving management and labor, racial issues and church organization, but has been weak in the field of morality. "We've shown about as much force as stirring the ocean with a teaspoon," he said.

What world issues worry Dr. Peale, a reporter asked?  
You've asked the wrong question to the fellow who wrote "The Power of Positive Thinking," he admonished. "I don't worry."

He said he was a great believer in the freedom of speech but warned that freedom is tied to strong religious faith. . . . that more preachers should hammer against sin — and call it sin by name.

He said that no one voice speaks for the Protestant faith. "It is the many voices that give it strength he said.

Unanimity of all faiths moved closer together because of the late Pope John XXIII, Dr. Peale said.

"Pope John was a great human, a lovable man, a simple man who believed in the Lord Jesus Christ and Peace," he added.

**Scott Is Host**  
George Scott, host to Dr. and Mrs. Peale, announced that a group he heads was attempting to interest Dr. Peale's participation in a \$10 million "Peale Community of Positive Living" center which would cover 1,024 acres of land near the Highway 395-Poway turnoff.

Former L.A. Mayor Norris Paulson and Dr. Z. I. Beregov, both of La Jolla, and Don Ebdin, a retired advertising agency executive would join with Scott in the venture "if we get the Peale's to accept this challenge," Scott said.

Dr. Peale, who writes a syndicated column on positive thinking and who is pastor of Marblehead Collegiate church in N.Y. City, said he would spend as much time as possible at the (Continued on Page 4)

## Foster Homes Needed Here

Only five foster homes for teenagers are located in the Spring Valley-Lemon Grove area and twice that number are needed immediately, according to Miss Beverly Rumbaugh, senior probation officer.

The San Diego County Probation Department is requesting families of this area to open their homes to youngsters, Miss Rumbaugh said.

**Dependent Children**  
The children are called "Dependent Children of the Court," Miss Rumbaugh continued. They are under the temporary guardianship of the court because, in most cases, they have been abused or neglected at home, have been abandoned, or because their parents are in poor health, having physical or emotional disorders.

**Want To Stay**  
Two teenage youngsters are in county institutions today because there are no openings in foster homes in this area. They have been attending school and church here and would like to remain.

One of these youngsters has lived in the area two years and is being misplaced because his foster parents are moving away. Nine other 16 and 17-year-old boys and girls also could be placed in this vicinity.

The cultural and living atmosphere of Lemon Grove and Spring Valley produces excellent foster homes, Miss Rumbaugh said.

**Qualifications**  
Families can qualify as foster parents if they like teenagers are of suitable age (minimum age is 30), if members of the family are in good physical and mental health, and if they have adequate space in their homes, according to Miss Rumbaugh.

Foster parents are reimbursed for the expense of maintaining a foster child.

Families in this area desiring more information can call Miss Rumbaugh, coordinator of the Foster Homes for Teens Program, at 233-8011 or write to her at 220 West Broadway, San Diego.

**ALOHA—A touch of sadness was co-mingled with fun as members of the L.G. School District said "farewell" to the Joseph Dostals of Wahiawa, Oahu, Hawaii. Dostal, a school principal in Hawaii, exchanged with Arthur Thomas, principal of Monterey Heights in Lemon Grove. As the Dostals, at right, made ready to sail into the golden sunset to return to Hawaii, school teachers at Monterey Heights, and administrators, gave the Dostals a surprise farewell at El Nadadero. ## SONKA DAY TICKETS ON SALE HERE Funds Okayed For HID Plant

Tickets go on sale this week for the Tony Sonka Day dinner scheduled for July 18 at 7:30 p.m. at Michaels on Broadway in Lemon Grove.

The dinner will be only one of the highlights of an action-packed week-end planned for Lemon Grove from July 17 to 20.

Sonka, one of the town's "founding fathers" will be feted at a dinner expected to attract more than a hundred persons. The dinner, sponsored by the L.G. Men's Club, may be attended by women, too. Usually, women are barred from Men's Club functions.

Many dignitaries are expected to participate since Sonka's 53 year residence in Lemon Grove has won him a wide circle of friends. David W. Bird, County Supervisor, has already announced his attendance. Tickets, on sale this week, are \$4.75 a couple and a steak dinner is the menu.

As part of a four-day celebration by the merchants' division of the Chamber of Commerce, a car cavalcade will be run down Broadway at noon July 17. That night, a Moonlight Sale will be conducted by local merchants.

The L.G. Rotary club is sponsoring a talent contest the following evening. And a street dance, put on by the newly activated L.G. Jaycees will be held the same evening. The exact location will be announced later.

During the entire four-day period, local merchants will offer sale-priced merchandise under the banner of July Crazy Daze. The Crazy Daze label is (Continued on Page 4)

## Commission Cuts Steeple 20 Feet

**SAN DIEGO (CNS)** — A special use permit for a new L.G. Methodist church was approved Friday by County Planning, but a proposed church spire was cut down 20 feet by the commission.

The new church will be built at Washington and Golden. The commission cut a proposed spire down to 70 feet from 90 feet asked by the church's architect, James F. Bernard.

Commissioner Gil Ray, of Spring Valley, said that there was no necessity for a tall spire on the church, because of its location on a high promontory. Bernard asked that commissioners permit at least 10 feet to be added to give "balance" between the building and the spire.

"If you cut it down too far," said Bernard, "it'll just be bob-tailed."

Frank Armstrong an attorney who is a member of the church, argued that many Lemon Grove churches have spires and steeples much higher than the one proposed by the Methodists, but Ray held firm to the belief that no such height was needed.

## Funds Okayed For HID Plant

Helix Irrigation District has been granted \$1,140,500 accelerated public works program funds. The announcement came Friday, just before the deadline after which Helix District matching funds may have cost considerably more in interest charges.

The money will be used to help finance a water treatment plant adjacent to Chet Harritt Dam, east of Lakeside.

The District applied for funds last fall but was told in February that funds were not available.

## HID RECREATION GRANT LIKELY

Helix Irrigation District will get another \$900,000 grant, this one from the State, if Governor Brown signs AB 1076, now on his desk.

It would provide for the money to be used for recreational facilities around the Chet Harritt Dam near Lakeside.

The Bill is the first under the Davis-Grunsky local assistance water program.

The federal program is designed to speed needed public improvements in areas of underemployment. The treatment plant will provide 1,125 man-

## Board Approves College Budget

The preliminary budget was approved for the Grossmont Junior College District Monday evening by the Board of Trustees, totaling \$1,376,000 or an increase of \$25,000 over the budget for the current year.

Current expenditure portion of the budget was \$1,005,000 for next year, or an increase of 14.4/10% over the \$880,000 in the current year's budget. Estimated enrollment for 1963-64 is 1,596, a gain of 20% over the current year's 1,330.

Before the budget is finally adopted, it is submitted to the County Superintendent of Schools and returned to the Board for any further revisions between July 1 and July 20. Following this, it is published in a local paper before the final budget hearing and adoption of the budget on August 5.

The Grossmont College Faculty Committee made a presentation for a salary increase which could require changes in the budget. A proposed schedule ranging from \$5,665 to \$11,495 was recommended by the Salary Committee. The current schedule ranges from \$5,150 to \$10,450. The increased cost of the proposed schedule would be \$43,000 or a 9 1/2% increase.

## Ray To Tell L.G. Men's Club Sins Of Strip Zoning

Gil Ray, the Casa de Oro real estate man who has served as a member of the County Planning Commission for the past seven years, will be speaker Friday at the L.G. Men's club.

Ray, who guided the Casa de Oro plan for Campo by which off-street parking was provided for the newer business section, will tell the club about the sins of strip zoning.

"Commercial strip zoning without provisions for parking is usually economically lethal," Ray said. He'll tell the club some of the steps Lemon Grove should take to overcome some of its zoning-parking problems.

The following week the club will hear San Diego County Sheriff Joseph O'Connor, according to Jack Cummings, club president.

The club was visited last week by Supervisor David Bird. Bird being an old-time member, was greeted amid much joviality.

The speaker, Art Dahlquist, treasurer of the City of La Mesa and a realtor, talked about the borough system of government.

He said that small communities remain good communities because of the resident's pride in them. Local government offers the best solution to community problems. Solving these problems keeps the residents pride alive. These problems are the ones coming inherent in highly congested population growth areas, he said.

He envisioned a happy community as one which is part of a larger service federation but with representatives to speak for the local community.

Water and sewer facilities' districts in San Diego county might eventually form the boundaries of a borough, Dahlquist added.

The club meets at Michael's every Friday at noon and men are invited.

## Commercial Zoning Denied

**SAN DIEGO (CNS)** — Fred Moritz was denied permission Friday by the County Planning Commission to extend a C-1, commercial use, zone to include the entire lot on the southwest corner of Sweetwater and Troy, Lemon Grove.

### The Pen As A Contraceptive

A guy tossed a knotty problem to county authorities last week. It isn't that the problem hasn't been there right along but he brought it out into the open.

The guy, who signed himself as Raymond N. Harter and who gave the address of 3715 Hawk st., in S.D., mailed a letter to the Board of Supervisors in which he said he was shocked to discover that birth control information was not available to those on welfare rolls who wanted and needed it.

Dr. J. B. Askew, public health director said his department referred people to their own physician when inquiries are made.

"If they have no private physician, then they won't be able to get the information they need," Dr. Askew added.

Homer Dietrich, welfare director, said that his department had no one qualified to advise on such matters. He added that he knew that some people currently on the welfare rolls might benefit from such information.

There are those who claim birth control information will increase promiscuity. There are those who are equally convinced that welfare laws encourage illegitimacy. Progressive thinkers (Continued on Page 4)

Richardson, right, senior and ASB president, Grossmont Junior College, receives the chrome-plated shovel that was used in the ground-breaking ceremonies signifying the beginning of the junior college's de-placed in a glass case in the college's quad, is Robert Dryden, placed in a glass case in the college's quad, is Robert Dryden, a trustee of the Junior College District. ## Prefer Hogs to Rentals

## Property Owners Oppose Helix Zoning Proposal

**SAN DIEGO (CNS)** — A planning commissioner's attempt to protect a subdivision from "the dangers of hogs and chickens" got tangled up Friday with some Spring Valley residents' fear of cheap rentals.

Commissioner Gil Ray, a real estate man of Spring Valley, who lives in the area proposed for rezoning from A-3(1) and A-4(1), which permit heavy agricultural uses, had proposed that a 289-acre area on both sides of Helix st. near Ivy st. be rezoned for residential purposes.

**Other Land**  
He later told commissioners that "we have a subdivision going into the area and there is property being sold nearby that could conceivably be sold for use in heavy agriculture in this zone."

The commission policy of notifying area property owners by mail had been waived. Only a legal advertisement had been placed in the newspaper, said Dr. Willis Miller, planning director, because of the "mechanical problems of getting so many notices to so many people."

**Deluge Of Protests**  
The commission was deluged with protests, however, despite the lack of individual notification.

Raymond Apertle, a property

owner affected, presented three petitions he said represented over 80 per cent of the land owners in the Montemar dr. area protesting the proposal.

V. E. Jaquith, of 9360 Ivy Ln., expressed the majority's fear of lowering the building site minimum to allow rentals in an area where high-priced homes have been built.

**Hogs Over Rentals**  
Jaquith countered Ray's warning that chicken and hog farms could be brought into the neighborhood by saying, "I'd rather have chickens and hogs than rentals."

Mrs. D. R. Swenson, of 9404 Montemar, said that people in the area wanted the freedom of "a few projects when we want them," but ruled out rentals.

The commission asked the petitioners to meet and consider a one-acre residential zone as a compromise and report back June 28.

## Grossmont Given Maximum Period Accreditation

Grossmont College has won the exceptional honor of a three-year accreditation period from the Western Association of Schools and Colleges.

The college district board of trustees, meeting last Monday night, June 17, was informed by Grossmont College President John S. Hansen that the Junior College Accrediting Commission of the WASC has voted to give the local institution the maximum period of accreditation that can be given to a new college at the time of the initial accreditation visit.

**WASC Visit**  
A team from the WASC visited the Grossmont campus in April. Dr. Henry J. Tyler, executive secretary to the California Junior College Association, in a letter to Mr. Hansen said "the impression created by Grossmont College was a very favorable one."

Dr. Catherine J. Robbins, president of Pasadena City College and head of the accrediting team, wrote to Mr. Hansen saying, "We really were impressed with the operation and spirit of Grossmont College."

Grossmont College has had tentative accreditation from the State Department of Education since it opened its doors in September, 1962. Accreditation guarantees to the student, other collegiate institutions and the general public that a quality program is offered.

**Campus Construction**  
Permanent accreditation of Grossmont hinged in part on the assurance to the visiting evaluators that the college, now sharing a high school campus, would have its own campus shortly. In the fall of 1962, after two defeats, a bond issue to build the campus passed with an overwhelming margin. Grad- (Continued on Page 4)

## Grove Man Jailed For Check Writing

**SAN DIEGO (CNS)** — Jack S. Golden, 45, who formerly lived at 1505 Madera, Lemon Grove, was sentenced to prison Tuesday morning for a crime he committed in 1961.

In January, 1961, Golden pleaded guilty to the crime of issuing non-sufficient funds checks and was placed on five years probation and ordered to pay restitution of \$947.

Superior Court Judge Gerald Thomas revoked Golden's probation saying that he had completely ignored the terms and conditions imposed.

The probation report says that the defendant was extremely lax in reporting and that at one time he left the state without permission. During much of the probation period, the department did not know where Golden was living.

The original conviction arose out of Golden's attempt to sub-lease the Cuyamaca Trout Lake resort without enough money even to make the first down payment of \$1,500.

## HEARINGS NOW ON COUNTY BUDGET

**SAN DIEGO (CNS)** — Hearings began Wednesday morning for the final 1963-64 budget of \$98,743,865 for the County of San Diego before the Board of Supervisors.

Some five hours of hearings were scheduled Thursday also for the board to consider requests for assistance from various civic and community organizations.

## Mail To ZIP Thru in Code

You can get your mail much faster if you use ZIP Code numbers, Lemon Grove Postmaster Frenchy Faucher announced this week.

The five-digit ZIP Code number for Lemon Grove is 92045.

"The use of the ZIP Code will speed mail and reduce the chance of mislaid mail," the Postmaster said.

The revolutionary new system of improved mail service built around the Post Office Department's ZIP Code goes into effect nationally July 1.

The Postmaster suggested that the ZIP Code be used in the sender's address on all correspondence. In answering mail, she said, ZIP Codes taken from return addresses should be used. The number should follow the city and state in addresses.

Addresses are often read as many as eight times by postal employees. With ZIP Code, a clerk need only glance at the number to know what national area, state and post office the letter is scheduled for.

ZIP means Zone Improvement Program.

# Committee Passes Amended Book Bill

By Education News Service  
SACRAMENTO — A solution of the controversial textbook selection issue has been found that appears to satisfy all sides to the dispute — a remarkable achievement here these days.

As a result, the atmosphere concerning textbooks is far different today than it was in February and March when the State Board of Education and State Superintendent of Public Instruction Max Rafferty were busy trading blows over the issue.

**Multiple Adoption**  
Evidence of the new mood came June 5 when the Assembly Ways and Means Committee passed without difficulty a measure to provide multiple adoption of textbooks for public elementary schools in California.

However, the measure — Assembly Bill 1031 by Assemblyman Gordon Winton, Jr. of Merced — isn't the same bill it was when its introduction touched off a blistering argument early in the 1963 session of the Legislature.

**Amended**  
In contrast with the hostile atmosphere in which it was first introduced, the bill had all segments of the California educational world lined up behind it Wednesday, June 5. It had been amended to eliminate all the controversial features of multiple textbook adoption.

The new AB 1031 allows the State Board of Education to adopt and distribute texts on what is called a "three-track" basis, that is, texts for slow, average and rapid-learning children in each of the subject matter areas for each grade, and for children of varying language ability.

**Implied Power**  
The amendments were made following the issuance of an Attorney General's opinion April 25 which held that the State

Board of Education's power to adopt textbooks on such a basis is implied in existing law.

However, Deputy Attorney General Richard Mayers, who wrote the opinion, felt that the Education Code left some doubt as to the Board's power to distribute texts on such a basis.

The effect of the amended AB 1031 is to resolve that doubt and remove any question of the Board's authority to distribute texts chosen for the various levels of ability.

**Permissive**  
AB 1031 is permissive. That is, it leaves with the State Board of Education the discretion to make or not to make multiple texts available to local districts.

Sources in the State Department of Education and others close to the Board feel that Board members now "lean" in the direction of multiple adoption of textbooks, but that there are factors which could influence any decision they may make.

**Printing Problems**  
Dr. Richard M. Clowes, chief of the Department's Division of Instruction, pointed out that because of shorter press runs and the increased printer's make-ready and binding problems, the cost of individual texts will be higher. He also noted that few texts for slow learners are apt to be found on the market, principally because publishers are loathe to have their books identified as such.

**Pros And Cons**  
Objections from teachers against having to cope with as many as three texts for the same class have already been registered, according to one Department of Education aide.

On the other hand, the State Curriculum Commission, which is reported by Sacramento member Mrs. Elaine Stove to have taken no position on the bill, is already at work planning for two-track text adoptions in grades one through six and for three-track adoptions in grades seven and eight in the field of mathematics.

**Supporters**  
Although some feel AB 1031 doesn't go far enough, educational groups and agencies are unanimously in support of the bill.

The State Board of Education voted recently in San Francisco to support it. Dr. Max Rafferty, State superintendent of public instruction, said he is "very much for it — it's a big step in the right direction. Teachers will have the flexibility to provide texts suited to their students' capabilities."

## Sewers Planned For 60 Acres Here

SAN DIEGO (CNS) — A resolution to construct a sanitary sewer system in 60 acres of the MacArthur dr. section of Lemon Grove was approved Tuesday by the County Board of Supervisors after a public hearing on the project.

Warren A. Barney, director of Special District Services, estimated that the cost of the project to cover some 60 acres will be about \$75,000.

He estimated that the cost of the project would be about \$3.60 per front foot for property owners affected, but an assessment hearing at a later date will set the exact cost.

The project will be financed through a 1911 Improvement Act proceeding to be paid for by property owners receiving benefit.

## Team Report

Facets of Grossmont College operations which drew particular commendation in the accreditation team report are indicated in the following passages from the report:

• "The aims and purposes of the college have been developed with apparent thoroughness and widespread participation of faculty, administration and community."

• "There is a sensitivity to community needs and rather thorough awareness of educational objectives of the College."

• "The vocational-technical program has shown remarkable growth in the comparatively short period of the existence of the college."

• "The instructional staff is well prepared and is doing an effective job."

• "An excellent faculty-administration relationship exists in those cases observed. This also seems to be true between the college staff as a whole and the students."

• "The non-instructional staff appears to be extremely dedicated, competent and concerned for the growth of the college."

• "The college is to be commended for an achievement of a sense of belongingness and team spirit on the part of the students that is better than one would expect of the limited day schedule and facilities."

• "The greatest strengths of the college appear to be the well-organized administration, the careful planning for the new campus, and the emphasis on instruction and learning."

Greatest Need  
In its recommendations, the team stated that "the most noted need is for the new campus and a full daytime schedule, and this has been guaranteed by the excellent work of staff, students and citizens in accomplishing the successful bond election and the detailed educational specifications for the new facilities."

Specific recommendations pertained to improvement of existing facilities.

today are worried about the population explosion which is adding thousands each day to the starving (Newsweek, June 17) "latest estimate is that 10,000 persons on the globe starve to death daily."

Dr. Jordan Detzer, Lemon Grove Methodist minister, observed that men in India today are offered a grant equal to \$5 for undergoing a minor surgical operation rendering them sterile.

At the same time Indian men are queuing up at the sterilization shops to collect this financial windfall we have many San Diego ladies collecting a welfare financial windfall for illegitimate productivity.

Seekers of the Truth will wrestle for months to come with the problems brought forth by Mr. Harter's pen. Their choices are several:

Continue to pay for conception; give free birth control information; provide free contraceptives, and/or provide sterilization to those who request it.

## Standing Straight; Not Crawling

Warner and Swasey, machinery manufacturers of Cleveland, offers a thought on Americanism that is worthy of repeating.

So strong is the firm's opinion that they buy full page advertisements in newsmagazines to give their patriotic theme wider dissemination.

In an oblique thought, it should be noted that the present Administration has urged Internal Revenue to deny firms the right to charge the cost of this type of advertising to the cost of doing business. Other types of advertising are so charged; but patriotism — nyet!

Say Mr. Warner and Mr. Swasey: "Does the world think Americans are afraid of nuclear war and death? The true American is not!"

"But they are worried about weakness. It seems there is too much talk of disarmament and not enough tough preparedness. Too much desire to make deals and not enough insistence the other side do the petitioning. Too much whispering of words we can't hear. Too much appeasement, not enough demand. Too much No Win, not enough Victory. Too much trust of the untrustworthy."

"This is the only nation that has always given, not taken. It seems to us this allows us certain important rights. And we earnestly believe the American people are willing to risk their lives if need be to enforce those rights of decency, and honor, and freedom."

"Whenever our government has courageously stood up for our nation's right in the world there has been a heartening wave of enthusiastic support and pride."

"Americans are not afraid; theirs is quiet courage. It is the cowards who do the screaming."

"Listen for the Americans!"

## Letters TO THE EDITOR

WHERE DO YOU STAND?

Dear Editor:

Your last editorial concerning "The Dictionary of American Slang" has our family puzzled.

In your previous June 6 editorial, your headline was "Filth Peddlers Complain about Filth" and throughout the column, you call the excerpts from this "dictionary" (to quote) "one of the vilest printed pieces ever seen," and "printed obscenities," and "smut." You were seemingly all upset because your 12-year-old son had, allegedly, brought this pamphlet home.

Yet this week you are rather defending the book, by saying that while in its 670 pages these vile terms do appear, still, one must avoid censorship and you give as gold-plated references the opinions from "Book Review Digest," wherein they suggest "that these words are heard in daily life."

I don't believe it. Neither do my friends. Does your family use this language, Mr. Editor? These words are not used by decent Americans, most of whom still believe in "Blessed are the pure in heart" as a goal to aim for.

What is school for? For mental growth, is it not? Should we allow our children's minds to be poisoned and twisted because some very few odd-balls are afraid of censorship? We try to censor our children's reading, movies, and companionship, guiding them toward wholesome and high ideals. We also censor their food not allowing them to eat, as they please, of things that would be tasty but lacking in essential vitamins.

"Spiritual vitamins" are even more important in our household. Why else are parents needed, if not to guide (and censor) for the immature minds that are a God-given responsibility? You jumped to the conclusion that the pamphlets were put out by "filth peddlers" and yet this week you criticize others for getting incensed over words that are in a book they'd never "seen."

If you can name one good reason for any of the vile words objected to, then please do so.

As I said before, your attitude puzzles us. Why would you object to your son reading a pamphlet of words taken from this book and yet not feel the book itself should be banned?

Where do you stand, Sir?

Mr. & Mrs. Leo McDade  
8288 Lincoln st.  
Lemon Grove, Calif.

## SAMARITAN NEIGHBORS

Dear Editor:

Every now and then you hear someone say, "Neighbors aren't what they used to be." Well, don't you believe it! Living in this community we know how wonderful neighbors can be, and we use the word "neighbor" in its fullest sense, as in the story of the good Samaritan.

Now you know about the fund that was collected for us and we thank you for your part in that. But did you know that neighbors painted, waxed, washed, and ironed and sawed and hammered to get our house ready for us to come home to?

And did you know that they are still helping us by driving us to medical appointments, visiting us, and cooking delicious meals for us every evening, plus the usual house-cleaning? The fashion show, the donation of the wheel-chairs, I could go on and on and on ...

Mrs. Ruiz has said that the sign on our Lemon Grove Lemon, down there in the center of town, should read "Best People On Earth" instead of "Best Climate on Earth." And she's right!

Sincerely,  
Mrs. Vernon R. Block  
2305 Washington

Three scholarships, donated by the Greenfield Junior High School PTA to Grossmont College have been awarded for the fall semester to Alverda Davis, Gail Channell, and Constance Dann. All three recipients live in El Cajon and are graduates this spring of Granite Hills High School.

A brochure giving details of the Grossmont College cultural events program for 1963-64 is being prepared and will be mailed to interested area citizens. Those wishing to be placed on the mailing list should telephone the Student Affairs Office at 465-1700.

Among the attractions scheduled for next year are Dr. Walter Judd, Republican Congressman; Roscoe Drummond, syndicated columnist; Dr. Gerald Heard, author and scientist; Dr. Robert M. Hutchins, educator; Monroe Wheeler, art critic; Vance Packard, noted author; and Baroness Von Trapp, head of an internationally known folk-singing group.

Copies of the Grossmont College yearbook, MIGMA, may be purchased at the college bookstore or student affairs office through the week of June 17. ## Seven Stocks Finish Race

Some 2,117 enthusiastic fans saw seven cars finish out of 24 starters at Cajon Speedway Saturday night, June 15.

The Super Stock car 25-lap main event hit trouble in the first lap as a 10-car pile-up took six cars out of the race. Three restarts were necessary.

Vance Butler of El Cajon, driving a 1948 Ford, won the race in 9:09. Butler is in position to close fast on Dick Guest of Lakeside in the season's point standings as Guest's car caught fire and dropped out of the race. Thirteen points separate the two in the Super Stock standings.

The 15 lap Women's Powder Puff main event was won by Rosie Surdez, a 20-year-old hot rodder from Santee, who also won the trophy dash and heat race for a clean sweep.

Odie Robertson, leader of the Super Stock car "woman hater's society," won the trophy dash and a big kiss from trophy queen, Bonnie Simmons from Conair Astronautics.

A "crazy race" was held between main events with Don Le Roux taking the trophy in the contest with three cars traveling in each direction and passing head on. Super Stock cars will race again July 4 with Claiming Stock cars the next two Saturday night programs.

## 5,000 Expected At SDS College

More than 5,000 students are expected to enroll Monday, June 24, in San Diego State's Summer Session, Term I, according to Dr. Marvin H. Platz, coordinator of summer sessions.

Registration for the six-week term, June 24-August 2, will be held in the college library from 8 a.m. to 3 p.m. Platz explained that students who have not applied for admission to the summer session should apply at the administration building on or before June 24 in order to receive enrollment permits.

Any person who is over 21 years of age, or has attended college, or who has been admitted to San Diego State for Fall 1963, is eligible to enroll in the summer program provided he has the prerequisites for the courses of his choice. A second summer term, of three weeks duration, is scheduled August 5-23.

Full information may be obtained at the Summer Sessions Office, San Diego State College, Union 2-4411, ext. 471.

## Picture of Lemon Corner Displayed

An oil painting of the corner of Broadway and Imperial, which shows the Lemon Grove lemon, is on exhibit at the La Mesa Foothills Art Association gallery during June.

The gallery is located at 8053 University ave.

Hettie Mae Hall, a local artist who has permanent exhibits in the local chamber of Commerce building, painted the picture.

Mrs. Hall said she wants to increase the depths of colors and turn the picture into a post card piece for the enrichment of the local Chamber of Commerce.

Lois Claussen, a Mount Miguel senior who received the certificate of commendation for outstanding achievement in foreign languages, will attend Pacific Union College in Angwin, California, next fall.

Focusing her college education on languages, she intends to become either a language teacher or translator after college graduation.

Lois graduated with honors this June, leaving behind her a glowing record of achievement in French, Spanish, Russian, German and Latin. A life member of the California Scholastic Federation, Lois also served on 1963's Honor Aisle and class council, and is presently assistant leader of her church youth group.

Explaining her "formula for success," Lois says, "Natural curiosity has spurred me on. However, this year I found a further incentive for a drive for knowledge. Mrs. Ellen Hall, my English teacher, has promoted that incentive. She has given me an insight into how knowledge can be used to help others. I hope to attain a portion of her knowledge and apply it to a humanitarian effort."

Lois was recently awarded a scholarship by the Mount Miguel faculty, as well as receiving a trophy for outstanding achievement in foreign language.

I hope to attain a portion of her knowledge and apply it to a humanitarian effort."

Lois was recently awarded a scholarship by the Mount Miguel faculty, as well as receiving a trophy for outstanding achievement in foreign language.

## Local Sales Drop; S.D. Sales Strong

Total real estate sales in the Lemon Grove-La Mesa-Spring Valley area were down slightly during May, with a total of 259 as compared to 277 the previous month.

However, sales recorded during the month of May a year ago were 237, according to James C. Downs, Jr., editor of S.D. County Real Estate Trends published by Title Insurance and Trust Company.

"San Diego real estate statistics were stronger than in any recent month," Downs said. Volume of real estate sales in May was a sharp 25.6 percent ahead of the same month last year, and 7.6 percent over April's total.

Each year there are approximately seven exchanges made between the Federal Republic of Germany and the United States. The exchange teachers are selected from the public schools and, in case of those going to Germany, must have a speaking knowledge of German.

In some instances a candidate for exchange selects the teacher with whom he would like to exchange. This was exactly what McAnear and Spartz did by virtue of a series of fortunate happenings.

Both Spartz and McAnear had decided long before that they wanted to exchange teach, neither one, though, knowing about the other's desires. Herr Spartz particularly wanted to come to San Diego because his sister lives here. He wrote to his sister, expressing his wish to come to the United States as an exchange teacher, and if possible specifically to San Diego. His sister, Mrs. Michael Fitzpatrick, passed this on to the wife of a colleague of McAnear's. The colleague's wife called Mrs. McAnear, with whom she was acquainted, and relayed the message.

Mrs. McAnear, nee Doerbeck, was especially excited about the prospect of going to Duisburg because this largest of inland ports in Europe is only 15 or so miles from Solingen, the city in which she was born.

Mrs. McAnear's mother, who also resided in San Diego, will accompany the family to Germany.

## Teacher Exchange To Take L.G. Man To W. Germany

Marion McAnear, 2354 Di Foss st., Lemon Grove, a teacher of German at Crawford in the San Diego City Schools, has been awarded a Fulbright grant to exchange teach in Germany for the school year 1963-64.

McAnear will leave for Germany in the early part of August with his wife Helga and three children, Marcia, 15; Michael, 10, and Marvin, 5. His exchange, Herr Herbert Spartz, will leave with his wife and two children from Germany at about the same time.

They not only are exchanging teaching positions but homes as well. Herr Spartz will move into the furnished home in Lemon Grove and Mr. McAnear into the two-story furnished home in Duisburg.

The exchange is part of the cultural program carried on through the Department of Health, Education, and Welfare.

## Thieves Take Church Funds

Receipts from a church social, amounting to \$600, were stolen from the home of William J. Hammond, 10115 Vista de la Cruz, Casa de Oro Monday.

Thieves climbed in a window in his home and made off with the fund, \$472 of which was in cash and \$128 in checks, sheriff's deputies reported.
